## Holmevassfjellet 3,6 km (R/T)

Holmevassfjellet (505 MASL) is a family friendly trip in easy, clear terrain. The mountain leans towards Balsfjorden's eastern side offering a beautiful view of the fjordscape. The majestic Pigginden peak is visible throughout. The path is well marked by Balsfjord Outdoor Association and is among the "ten tops" (10 på topp). Holmevassfjellet lies in a lush area with a rich vegetation on calcareous bedrock. Holmevatnet lake contains char, and the eastern shore has a nice picnic area. There is a cache at the top.

P

Park at Dollarhaugen on the left side of the road.

Easy walk with beautiful views from the start. Family friendly trip.

## Trail description

The path is clear all the way up and starts at the parking area at Dollarhaugen. Follow the service road that transitions to path after 1 km. Despite some relatively steep parts it is never airy or difficult. After about 300m you find yourself on the east end of Holmvatnet lake. There are several paths from there, but if you seek the top turn left towards the ridge on the lake's south side. Look right and you will see the top with a cairn and cache. The cairn is an old landmark of the Mapping Authority. Enjoy a magnificent 360 panorama, including Piggtinden peak, Fugltinden peak, and Blåfjellet. Have a good trip!
